Arts in Education Showcase

Please come out and join us at the Arts-in-Education showcase to be held on April 11, 2016 at Cradle of Aviation Museum.

This is the time to come out and view all the arts programs our many artists have to offer schools. It will provide with the chance to view some talented people and what they have to offer.

It is important to meet and talk with them about the effectiveness of their programs.

We are fortunate to have a variety of vendors attending.

We urge you to walk around, mingle, and watch some of the shows to you can see what they have to offer to the students.
