

## **Officers' Training**

Training, training and more training, I can't say how important this is for PTA officers. For the past year, 90% of the issues that came to our attention are due to lack of training. Here are a few examples: Proposed income missing from the budget that was presented to members for adoption; the correct way to fill vacancy especially that of the president; nominating committees appointed, not elected; and many others. That is why I am encouraging all newly elected & returning officers for the 2016-2017 school year to attend Officers' Training on June 9<sup>th</sup>.

Officers' training is a perfect opportunity to start or complete your PTA spring cleaning. This training will equip new or returning officers with the they need to carry out their duties in their respective position. There will be training for the following officers: 1st and 2<sup>nd</sup> year president, council president, treasurer, vice president and secretary.

Just think of all of the information you will have to share with the executive board members at your orientation. And guess what? Training is a valid PTA expense.
